NYU LANGONE MEDICAL CENTER

Version 12/30/2009

Brain Imaging Study

The NYU Child Study Center is looking for volunteers to participate in an imaging study about brain processes related to social and emotional functioning.

We are seeking adults between the ages of 18 and 55 who:

- have had a diagnosis of an **Autism Spectrum Disorder**
- OR**
- have intense interests in highly specialized and often unusual areas,
 - have inflexible routines in personal habits,
 - and/or have poor awareness of social cues

Participation involves 2-3 sessions.

Compensation is provided.
